

Turnitin

Automated Plagiarism Detection

Creating a Turnitin assignment in Blackboard

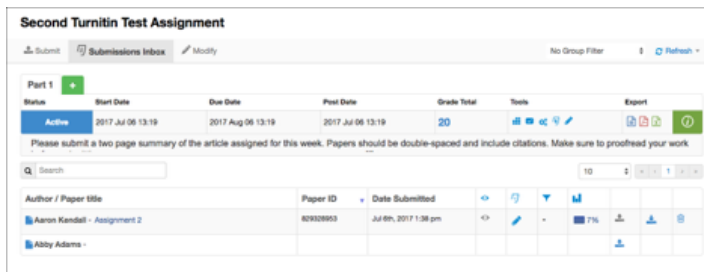

Creating Turnitin assignments in Blackboard is done very similarly to creating any other assignment.

1. Navigate to the content area where you would like to place the assignment.
2. Click on Assessments > Turnitin Direct Assignment
3. Enter an *Assignment Name* and *Overall Grade*
4. Choose whether or not you'd like to excluded small matches, bibliographic material, and/or quoted material.
5. Select which areas you would like Turnitin to check against. In particular, please consider carefully whether or not you want your student's papers added to Turnitin's repository.
6. Choose the appropriate Grades and Assignment options
7. Select *Create Assignment*

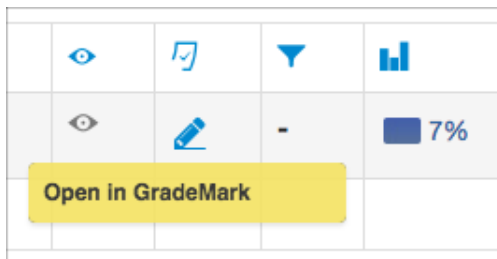

Turnitin submissions and feedback

Once the assignment has been created, you can monitor the submissions by navigating to the assignment in the content area in which it was placed, and selecting *View Assignment*. This will take you to the *Submissions Inbox*, where your students are listed and submission status can be viewed.

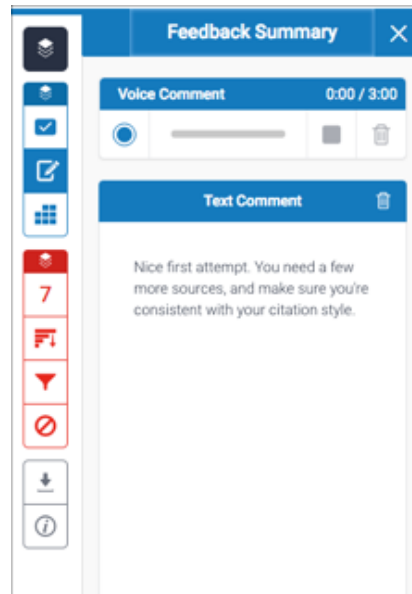

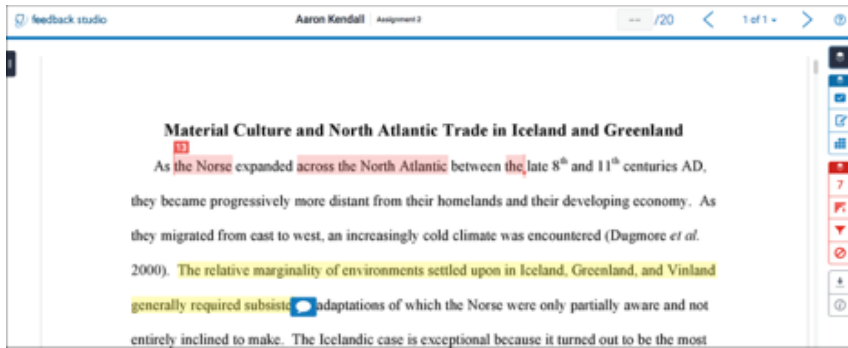

The screenshot shows the Turnitin Submissions Inbox for a "Second Turnitin Test Assignment". At the top, there are navigation links for "Submit", "Submissions Inbox", and "Modify". Below this, a summary for "Part 1" is shown with a green plus icon. The summary includes a table with columns for Status, Start Date, Due Date, Post Date, Grade Total, Tools, and Export. The Status is "Active", Start Date is "2017 Jul 06 13:19", Due Date is "2017 Aug 06 13:19", Post Date is "2017 Jul 06 13:19", and Grade Total is "20". Below the summary, there is a search bar and a table of submissions. The table has columns for Author / Paper Title, Paper ID, and Date Submitted. The first submission is by "Aaron Kendall - Assignment 2" with Paper ID "829328953" and Date Submitted "Jul 6th, 2017 1:38 pm". The second submission is by "Abby Adams".

Once a student submission has been processed by Turnitin, you will see a percentage match and have the option to give feedback in *GradeMark* by clicking on the blue pencil.

This image is a close-up of a row in the Turnitin Submissions Inbox. It shows a grid of icons: an eye icon, a pencil icon, a minus sign, and a bar chart icon with "7%" next to it. Below the grid, a yellow button with the text "Open in GradeMark" is visible.

The feedback studio will open in a new tab and allow you to view the all the detected matches and give feedback in a variety of formats, including audio comments.

Entering Grades

Grades can be entered in the Turnitin *feedback studio* or directly into the Blackboard Grade Center.

If you have any questions about plagiarism detection, please do not hesitate to ask.
