Each week the WSPN office receives new music from small bands and promoters from around the world. Our music directors then review this music and select which albums to be available for DJs and be played over the air. Everyone involved in WSPN has to play this selected music on air twice per show even if you are not hosting a HOTBOX only show. if you do not know the music play something and log it for the good of our music directors.

We recommend playing it in the spaces between shows while DJ's are switching!

On our time slot schedule you will notice that some times have been marked as HOTBOX times. If you would like to have one of these prime HOTBOX ONLY time slots please mark these boxes. If you would like a HOTBOX only show and cannot participate in these times please specify on the timesheet below.
